## Nouns

Set of nouns showing the  
prefixes that nouns can have  
in Oloma

Make each noun class pair...

### Words with two noun prefixes

English (sg)	Oloma (singular)	Noun Prefix (sg)	Plural forms	Oloma (pl)	Noun Prefix (pl)
grave			graves		
corpse			corpses		
rat			rats		
mat			mats		
elephant			elephants		
breast			breasts		
egg			eggs		
nail			nails		
goat			goats		
fly			flies (N)		
stone			stones		
elbow			elbows		
book			books		
leaf			leaves		
dirt			<b>dirt</b>		
arm			arms		
bow			bows		
laughter			<b>laughter</b>		
neck			necks		
pot			pots		
cough			<b>cough</b>		
salt			<b>salt</b>		
python			pythons		
water			<b>water</b>		
oil			<b>oil</b>		
<b>Additional words</b>			<b>Additional words</b>		
man			men		
woman			women		
child			children		
house			houses		
axe			axes		
antelope			antelopes		
dog			dogs		
ear			ears		
stomach			stomachs		
water			<b>water</b>		

### Words with one noun prefix

English (singular)	Oloma (neutral)	Noun Prefixes	English (singular)
ashes			ashes
kolanut			kolanuts
chin			chins
body			bodies
father			fathers
mother			mothers
devil			<b>devil</b>

### Researcher's notes on field:

Prefix alternation: Nouns  
alternate prefixes in Oloma.  
However, some nouns in  
Oloma don't alternate (they

\*Vowel Harmony: There is  
no vowel harmony between  
the vowel prefix and the  
stem vowel of Oloma noun.  
Hence, pefix vowels  
combine freely with stem

\*Tonal alternation: the  
tone of the prefix is  
invariable for any given  
noun and therefore  
takes no part in the  
assignment of the noun

Notes from literature: (Elu; only take one prefix.

Hypothesis: During my first fieldwork, I observed that the agreement prefixes on noun modifiers in Oloma fall into two broad classes (human vs nonhuman). This stimuli will be helpful in testing this

**Notes from previous fieldw** hypothesis.

## Noun phrase (Noun & determiner)

### Singular forms

#### Nouns

grave	The grave
corpse	The corpse
rat	The rat
mat	The mat
elephant	The elephant
breast	The breast
egg	The egg
nail	The nail

Adjectives

The goal is to: - There are four core semantic types, which are typically associated with both large and small adjective classes	(i) identify the class of adjectives in Oloma (attributive ones) and	(ii) how they combine with nouns for agreement	(iii) What are the order adjectives? Maybe later	
	Dimension: big, small, long, tall, short, wide, deep, etc.	Age: new, young, old	Color: black, white, red	Value: good, bad, lovely, perfect, strange

English	Adjectives	Predicative		Singular Form	
	Oloma	English (predicative)	Oloma	English (attributive)	Attributive Oloma
big		the snake is big		big snake	
small		the goat is small		small goat	
long		the snake is long		long snake	
short		the man is short		short man	
wide		this road is wide		wide road	
narrow		this road is narrow		narrow road	
new		that pot is new		new pot	
young		that woman is young		young woman	
old		that woman is old		old woman	
black		the pot is black		black pot	
white		that cup is white		white cup	
red		this bag is red		red bag	
lovely		that boy is lovely		lovely boy	
strange		the road is strange		strange road	
good		that girl is good		good girl	
bad		the girl is bad		bad girl	
		the food is bad		bad food	

English	Adjectives	Predicative		Plural Form	
	Oloma	English	Oloma	English	Attributive Oloma
big		the snakes are big		big snakes	
small		the goats are small		small goats	
long		the snakes are long		long snakes	
short		the men are short		short men	
wide		these roads are wide		wide roads	
narrow		these roads are narrow		narrow roads	
new		those pots are new		new pots	
young		those women are young		young women	
old		those women are old		old women	
black		the pots are black		black pots	
white		those cups are white		white cups	
red		those bags are red		red bags	
lovely		those boys are lovely		lovely boys	
strange		the roads are strange		strange roads	
good		those girls are good		good girls	
bad		those girls are bad		bad girls	
		those food are bad		bad food(pl)	

This study is interested in attributive adjectives. While all the adjectives listed above can be attributive, that's not the case for some of these adjectives which could predicative in some languages.

Supplementary studies: how adjectives are ordered in Oloma

## Numerals

				90	Ninety						
				100	One Hundred						
				101	One Hundred One						
				1000	One Thousand						

## Interaction: Description

In examining the kind of interaction that exists between Oloma nouns and their modifiers (possessives, adjectives, determiners, numerals, and demonstratives), I group them into two: A. Noun phrase with two modifiers. B. Noun phrases with three modifiers. For the first group, there are only 7 permutations (the rest are impossible). On the other hand, for the second group (noun phrases with three modifiers), there are only three permutations

### 7 possible combinations (Noun phrase with two modifiers)

1	Dem+Adj+Noun
2	Def+Adj+Noun
3	Num+Adj+Noun
4	Poss+Adj+Noun
5	Det+Num+Noun
6	Dem+Num+Noun
7	Poss+Num+Noun

### 3 possible combinations (Noun phrase with three modifiers)

1	Poss+Num+Adj+Noun
2	Det+Num+Adj+Noun
3	Dem+Num+Adj+Noun

### Nouns (Singular)

English	Olooma	English	Olooma
man		men
